# KILL THIRTY-FOUR SNAKES IN TWO DAYS

ALL RATTLES AND INCLUDED, BIG AND LITTLE ONES, ALIKE

KINGMAN, May 2.—James W Gouin, who arrived in Kingman yesterday from the Bottle Neck wash section of Wallapai mountains, tells a rattlesnake story.

Several days ago Bennett and Echols of Oatman were going to their claim in the Bottle Neck wash, when one of the men ran onto a rattlesnake. He called to his companion to look out, and the other, follow, not seeing the reptile and not knowing in which direction to move, took a chance and landed on another rather that was lying close by.

The men dispatched the two snakes and then went on to their mine. Here they found four rattlers that had just come out of the rocks and were sunning themselves. Within two days they killed 34 snakes and are still looking for others. The snakes were a size from the largest to tiny baby rattlers.

# LOOKING BACKWARD TWENTY-FOUR YEARS

The sixty-fourth anniversary of the foundation of the L. O. O. F. was celebrated last night, in Tombstone by a banquet. An enjoyable time was spent, until after midnight, in singing and responding to toasts.

The first man on the ground, this morning, at the scene of the new gold excitement, was Chas. Hine. He had a horse and buggy loaded down to the utmost carrying capacity, with ore sacks, shovels, picks and grub. He contemplates getting a ton of the dirt and running it through the dry washer. The result will decide what there is in the dirt in the way of profit.

Let Arizona take steps to be represented at the National Silver Convention at Washington on the 26th of next month.

The Police News of last week contains a highly sensational story and illustration of a crime and sequel committed in Tombstone, in which there is not a word of truth.

Si Bryant shipped a car of ore yesterday, which will run \$100 per ton. The Tom Scott is turning out to be one of the biggest producers in Cochise county.

The gold excitement seemed to have died an unnatural death. The exertion was too great. The empty beer kegs and awning posts on Allen street again present their familiar appearance.

Mrs. Charles Granville Johnston was called to the bedside of her dying mother, Mrs. Hugh Casey, of San Francisco. She left on the noon coach accompanied by her niece Minnie.

Gas Hickey, Jack Bowman, John Pennepacker and Tom Wright, who left Bisbee for old Mexico, some weeks ago, in search of one of their lost mines, returned yesterday. They still have unshaken faith that the mine is still lost. The boys had lots of fun, though.

The Democratic Territorial Convention of New Mexico ignored silver in its platform. But three members stood by the white metal. This ought to kill her chances of statehood. A people who will not stand by their own country are not fit for self government.

There was a heavy fire at the Huachuca mountains yesterday in the vicinity of the snow capped peak. The sight of fire and snow in such close proximity to each other was a strange one.

The Citizen speaks of the "funding bill introduced by Mark Smith as being in the interest of the bond buyers." Would the Citizen favor its readers with the bill it speaks of as being introduced by Mr. Smith? The Citizen man must have been reading the "open letter."

If the taxpayers of Arizona are anxious to refund the indebtedness of this Territory they should get to work and back up the action of the last legislature and Governor Irwin in placing a gold clause in the funding bill. Those who pay no taxes are not expected to see any good in the funding act, further than to make political capital out of it.

A May day picnic to Kendel's grove, one of the amusements today in which a large number of Tombstonites will participate.

Wm Sharkey, of Biggs, California is visiting Tombstone as the guest of his sister, Mrs. McFarland, and his children Frank and Bessie. Sharkey is visiting Tombstone as the guest of his sister, Mrs. McFarland, and his children Frank and Bessie. Sharkey is visiting Tombstone as the guest of his sister, Mrs. McFarland, and his children Frank and Bessie.

D. W. Wallace, the cattle buyer, came in yesterday, and will proceed to gather several thousand head of cattle for shipment to Nevada ranges. The cattle were contracted for several months ago.

The May Day picnic at the river was attended by a large number of people from Tombstone. They camped at Crae's ranch where they enjoyed several hours. The rawhide band with their sweet music, added much to the enjoyment of the day.

Dr. Goodfellow accompanied by his secretary, A. Goldbaum, came in yesterday morning, and returned to Tucson this afternoon.

J. P. McAllister returned yesterday from Wilcox, from where he made a shipment of cattle from his ranch.

The man who wrote that open letter for "Our George" ought to be ashamed of himself.

Ferdinand Ward has finished his term in Sing Sing, and is back in New York, a wiser if not a better man.

A Mexican stole a bicycle down at Tucson, and the question arises whether he is not to be cessed with a horse thief and punished as one.

Mike McGuirk, one of the early, and almost constant residents of Cochise county came in on yesterday's coach and was warmly received by his many friends.

The Tombstone delegation to the gathering of K. of P. at Bisbee, will leave tomorrow morning going over by private conveyance.

The New York Herald believes that a western Democrat will be the next president of the United States.

The organs are going so far now as to accuse Mark Smith of having voted for the gold clause in the funding bill when it came up in the House. In their anxiety to rush in and get a whack at him they forgot that our much abused delegate has no vote in congress.

Tom Trainor is taking out good ore from Barrett's mine, which was sold under a lease. This claim is located near the Golden Rule.

# APPROVAL OF LAND SELECTED BY STATE

Word was received at the land office today announcing the approval by the general land office of 54,445 51 acres of land selected by the state land commission for the payment of the bonds of Yavapai, Coconino, Maricopa and Pima counties, issued as a bonus for the construction of railroads. The approval is subject to any valid interfering rights existing at the date of selection.

The total donation made by the general government for this purpose was 1,000,000 acres and selections aggregating 49,382 29 acres had been previously approved making a total to date of 1,038,27 80 acres approved and several hundred thousand acres more have been selected which have not yet been approved.

The approval of these selections reserves the right of way across any of the land which may hereafter be desired for canals or ditches constructed under the authority of the United States.

The Warren District Cubs defeated the Tombstone Stars yesterday in a fast game at Schuster's Park. The score was eight to six in favor of the Bisbeites. The local boys made a good showing considering the fact that they were not in trim and had not practiced, but it is evident that before they can hope to compete with such a team as this, they must be more artistic in handling the "pill."

## Loaded Truck

A truck loaded down to the brim with booze, in bottles, in cases and in barrels, the result of the raid conducted in Bisbee and Douglas Saturday, arrived in Tombstone this morning and the booze was turned over to J. Most of the bootleggers caught were given their preliminaries Saturday, and were released on bond of \$1000 each, while County Attorney Ross is conducting the balance of the preliminaries in Bisbee today. The County Attorney says he has the goods on every violator of the law that was caught in the clean-up of Saturday, and convictions in almost every case will be the result.

## Meningitis at Benron

Advices received from Benson today stated that a case of spinal meningitis has been discovered about two miles from the town, a child by the name of Williams just across the river having been taken ill last night. It could not be learned, whether the patient was seriously ill, and from source the disease developed. The county and town health officers have taken precautions to prevent the spread, and it is believed the case will be confined. Measles has kept the primary schools closed for the past two weeks, there being a large number of mild cases, which have been quarantined.
